

09th May 2025

Fumigation Fee for Fiji Exports on INTRAPAC and MICROPAC Services

Dear Valued Customer,

Please be advised that we will be introducing a Container Fumigation Fee effective 8th June 2025. This will be an origin charge in Fiji and will apply to all Fiji export cargo to the ports of Santo Laganville, Wallis, Futuna, Funafuti, Tarawa and Kiritimati (islands covered by our INTRAPAC & MICROPAC services).

There has been a significant increase in the incidence of biosecurity interceptions and poorer quality of returning empty containers from the islands to Fiji on our INTRAPAC and MICROPAC services. This has severely impacted both our cost and the turn time to make containers seaworthy for the next export shipments. We have been absorbing these costs for several years but, with conditions deterioration and adversely impacting our operations, we will need to pass on these costs to maintain our current levels of service.

The charges will be as follows:

Charge	Currency	20 Dry	40 Dry	20 Reefer	40 Reefer
Container Fumigation Fee	FJD	200	250	200	250

We thank you for your continued support, should you have any further questions or queries please contact your NPDL representative.

Sincerely,

NPDL
