U.S. Westcoast Schedule - "NPD California" Voyage 559N Delay

We regret to advise that ongoing crane repairs onboard the NPD California has delayed her departure from Apia, Samoa. Repairs are expected to be completed on 18-Nov (U.S. time) which would give her an arrival in Pago Pago of the 19-Nov.

We will update the forward schedule as soon as she has departed Apia.

We thank you for your continued support, should you have any further questions or queries please contact your NPD representative.
