AUSPAC – NPDL Tahiti Dry Docking and replacement with Capitaine Kupe for two Voyages

Dear Valued Customer,

Please be informed that due to our vessel dry docking programme, the NPDL Tahiti will be replaced by the Capitaine Kupe for two voyages in the AUSPAC service.

The NPDL Tahiti Voy 2502 will be her last voyage and she will complete her normal rotation up to Suva. Thereafter she will proceed to China for her dry dock. All onward cargo onboard will be discharged in Suva and connect to the Capitaine Kupe.

The Capitaine Kupe Voy 2502S will join the AUSPAC service in Suva and will pick up all the transhipments in Suva (from the NPDL Tahiti) as well as any Fiji exports to Vanuatu and Australia. The Capitaine Kupe has just completed her dry dock and will proceed from China to Fiji to uplift cargo from the NPDL Tahiti in Suva.
